Northern Ohio Service Directors Association - Meeting Hosted by MTech

March 10, 2021 – Noon

**Topic: Electric Vehicles – They ARE Here to Stay!  
MTech Now Delivering Four Models of Heavy Duty Electric Sweepers**

MTech will discuss several electric street sweeper models currently being delivered to customers around the world. Sweepers range from compact sweepers to full size municipal street sweepers with proven track records and are ready to work today.

We think you will be pleasantly surprised by numerous features and benefits including:

- Sweep performance is the same as their diesel powered counterparts
- Zero emissions
- Long battery run-time from 9 to 11 hours
- Charge from a standard 240V line already found in most municipal garages
- Truly a simple design and easy to maintain
- Warranties on batteries of five years and greater depending on the model
- Prices lower than you might think
- Many models already on Ohio STS and ODOT contracts
- Numerous grants available to assist with your purchase

It is easier to GO Green than ever before, even on your heavy duty equipment.

We look forward to seeing you on the 10<sup>th</sup>.

**Sewer • Street • Safety**
